Air Quality Forecast for the UK

Issued by the Met Office

Today: Low levels of air pollution across the UK today, helped by a few showers in the east and outbreaks of rain arriving across northwest Scotland.

Tomorrow: Predominantly Low levels of air pollution across the UK for Tuesday, although there is a chance of isolated pockets of elevated air pollution levels where early patchy fog occurs.

Outlook: Increasingly unsettled and windy conditions will develop, especially across northern areas, maintaining Low levels of air pollution across the UK.
